

The Smart Choice for Smart Powder Coating

Unique Control

Tremendous Transfer Efficiency

In-built Accessories

ivista

The Elegant 100 KV Electrostatic Powder Coating Machine

..... By means of The Entire Astounding Features

MANUAL | AUTOMATIC

ivista

The Elegant 100 KV Electrostatic Powder Coating Machine

The All New IVISTA An Elegant 100 K.V Electrostatic Powder Coating Equipment has been designed by GALLANT for Manual & Automatic Powder Coating application. It has multiple Safety features integrated with unique & reputed bought-out item to ensure complete operator friendly & High Transfer Efficiency with No - Back Ionization & Minimum Faraday Cage Effect.

The Powder Directly Feed comes from the Powder Box through Vibrating Plate & Suction Stick

- High transfer efficiency
- Enhanced reliability
- Multi-functional nozzle system
- Fine spray pattern and uniform film
- Light weighted Gun
- Compact powder pump
- Classic & smart control
- Less wear & Tear
- Quick & Easy Clean Hopper
- Operator friendly
- Guaranteed Performance

TECHNICAL SPECIFICATIONS

Electrical Specifications		Pneumatic Specifications	
Input Voltage	AC 220V/50Hz	Input Air Pressure	8 bar
Input Voltage Power	40VA	Air Consumption	15l ^m .h
Magnetic Control Voltage	DC 24V	Air Requirement	containing water<1.3g/m ³
Temperature Range	+20 C to 500 C	Maximum Oil Content	containing oil<0.01g/m ³

POWDER SPRAY GUN

Corona Charge light Weighted Powder Spray Gun integrated with 100 K.V Electrostatic High Voltage Generator Offers Outstanding Performance, Versatility & Excellent Ergonomics, Especially suited for Manual, Automatic & Laboratory System. Compatible with Powder Coating, Fusion Bond Epoxy, Kynar and Flock Coating Application.

Technical Specifications

Power Frequency	about 10KHz
Output Voltage	0-100KVDC
Output Current	150uA
Gun Weight	about 555g
Safety Standard	IP54
Powder Output	about 550g/min
High Voltage Installation Mode	inside
Polarity	negative
Container Capacity	70L

WIDE RANGE OF ACCESSORIES FOR EVERY APPLICATION

GALLANT
